— JERICHO —
the voice for the powerless

JERICHO is the only statewide non-partisan, interfaith advocacy and education organization which is dedicated to improving the lives of California's underserved, the disenfranchised struggling with poverty, disability and hopelessness. Without JERICHO, there would be no one speaking for and about these millions, many of whom are living without the barest of life's necessities. The problems they face are compounded by this time of job loss and economic upheaval.
